Good afternoon Ms. Bahr-Landsea,

We will be placing your comments below in consumer correspondence in Docket No. 20170009 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brandy Butler
Commission Deputy Clerk I

Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009. It is not fair for the company to continue to heap the financial risk onto customers like me to pursue new reactors at Turkey Point, a project for which there is no builder. I understand the builder, Westinghouse, filed for bankruptcy and is out of the nuclear construction business. And apparently FPL will not commit to actually build the reactors, nor will it commit to a price tag. Further, the company can't even show that the reactors are in the best economic interest of their customers.

If the reactor project is so speculative that FPL cannot provide you with evidence that the project remains a good deal for customers, how can FPL then ask your permission to incur even more costs pursuing the licenses for the project, which ultimately allows it to recover its costs plus interest from customers? However please do not even bother to ask for the documentation because any further studies into it would be a waste of time and dollars as the location is not sustainable nor is nuclear the best energy source to pursue at this time.

I have already paid too much for too long toward this phantom project, as have all the other FPL customers. As demonstrated by their management of Turkey Point and the cooling canals, the last thing that FPL should be entitled to is more money to support this facility. They asked for investments to pursue fracking initiatives and that also has not shown any profit to the company. Enough is enough.

Instead I beg you to redirect their energies from their anti-solar lobbying efforts and pursue making Florida the highest producer of solar energy per capita in the nation.

Thank you in advance for considering customers' economic interest in this proceeding. Please reject FPL's heavy-handed and unprecedented request.

Sincerely,

Sincerely,

Donna Bahr-Landsea
