Good morning Ms. Andersen,

We will be placing your comments below in consumer correspondence in Docket No. 20170009 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brandy Butler

Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009. It is not ethical for the company to continue to transfer the financial risk onto customers to pursue new reactors at Turkey Point, a project for which there is not even a builder. The former builder, Westinghouse, filed for bankruptcy and is out of the nuclear construction business. Apparently, FPL will not commit to actually build the reactors, nor will it commit to a price tag. Further, the company can't even show that the reactors are in the best economic interest of their customers.

If the reactor project is so speculative that FPL cannot provide you with evidence that the project remains a good deal for customers, how can FPL then ask your permission to incur even more costs pursuing the licenses for the project, which ultimately allows it to recover its costs plus interest from customers?

I have already paid for too long toward this phantom project, as have all the other FPL customers. Enough is enough. Stop this insanity!

Thank you in advance for considering all customers' economic interest in this proceeding. Please reject FPL's heavy-handed and unprecedented request.

Sincerely,

Sincerely,
Kim Andersen
