Dear Commissioners,

First, thank you for your service to our communities in Florida.

Next, as 35 year residents of Seminole County and having ALWAYS paid our taxes and assessments on time, we now find that Utilities Inc. ( formerly Sanlando Util. started by a local developer who cared about us) is proposing to you an almost 200% increase where Seminole would be subsidizing out of area and worse,out of State expenses, that the new Company wants to do with little regard for local Fl. people to make a "one size fits all" approach which would hurt many of us good customers for years!!!! I looked at their projected expenses to be borne by us and it contains large corporate salary increases that have little to do with "improving services" !!

Please do not allow this increase!!!

We are proud of our Commissioners, like Lee Constantine, who work hard like you to serve local people well and our environment , in Lee's case. He represents along with Seminole's attorney, many of us who have paid our fair share over the years as well as giving back to the community through volunteer work and our real vocations , ie, my wife and I in healthcare to the needy for 40 years.

Thank you for you thoughtful consideration of our request ,

Jim and Linda Berko
