Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009.

Westinghouse, filed for bankruptcy and is out of the nuclear construction business. And apparently FPL will not commit to actually build the reactors, nor will it commit to a price tag. Further, the company can't even show that the reactors are in the best economic interest of their customers.

The idea of another nuclear reactor in an area hit by hurricanes is insane.

I have already paid too much for too long toward this project. Please reject FPL's request. We live in a state with more sunshine than any other. Why isn't FPL considering solar energy?

Sincerely,

Sincerely,
Barbara J Lange
