Subject: Utilities, Inc. Florida Docket No. 20160101 rate increase request

Seminole County residents have a right to know why our county, Seminole, is subsidizing the rest of Florida's county water rate increase? This increase will put my family back in the "red" after struggling through the national recession with job losses. Is this unbalanced and proposed water increase legal and abide by Florida law(s)? Should not the proposed water rate increase be equal throughout Florida? Why would Seminole County foot the bill for the rest of Florida? This is discrimination at its best.

Seminole County residents would like to know why the proposed water rate increase is not equal throughout Florida? And why would anyone propose this type of staggered increase? And how would this unfair proposal even be on the agenda at any PSC meeting?

Sincerely,

Dave Wilson
Seminole County Resident
