Subject: Utilities Rate Increase

To Whom It May Concern:

I, as a resident of Wekiva Springs, am very against the unjust water rate increase. This high of an increase without any leeway will be a huge financial burden. We all need water to survive/live our lives and it is extremely unfair to make it so that we can't afford to pay our bills. This is Florida and we already have out of control power bills. Adding an extremely high water bill to that is so terrible. Please consider us in your decision.

Thank you,

Diana Hise
