Subject: Seminole county water increase

Hello

I am a resident of Sweetwater Oaks in Seminole county. I understand the vote to increase our water by 130% is set to occur tomorrow. Please note we are all against this increase and I hope your vote takes this into consideration.

Thank you

Kelly Stull Remiszewski

Subject: Water Rate Increase

Importance: High

I live in 32779. I do not agree that Utilites Inc should get passage for the requested rate increase of 130%.

We have NO other options for water, thus they can do anything to homeowners. Allowing them to do this hike, will just open the door for increases and request in the future.

I am a T-12 Paraplegic. I live on a fixed income. I donate MH services to the community. I give back, even though my life has been hard for 33 years. Please do

not allow them to step on us and take what we have. It is wrong. This amount of increase in this 32779 is not across the board, is unfair and burdens us to an unbearable degree.

Please take a STAND for us. We the Owners are counting on you!

Subject: Utilities Inc rate increase

Good morning. I understand that a significant rate increase is being considered by the Public Service Commission this week. The proposed rate appears to be excessive and unevenly distributed throughout the region. The proposed increase will cause hardship for many residents and customers of Utilities Inc and other providers and I strongly urge the commission to deny the rate increases as currently planned. Lee Constantine, our Seminole County Commissioner, has addressed this matter with the commission I believe and his representation of his constituents is well appreciated.

Thank you for attention to this item.

Subject: Utilities Inc. Rate Increase

Importance: High

Good afternoon – I wanted to voice my opinion regarding the proposed rate increase for water from Utilities Inc. From what I've been able to ascertain there is no reasonable explanation for such an extreme spike in this necessary service and it appears to be punitive in nature. This will impact all walks of life, both in terms of quality, value and financial. Essential services that make our area in Seminole County so appealing will have to be eliminated. The impact to homeowners will be substantial. I have empathy for Utilities Inc. and if the cost of this service is indeed spiking that can be a very challenging time for a business. Most utilities and businesses lessen this pain to consumers by spreading out the increase, requesting funding from taxing entities, and other sources. To increase our rates by more than double is completely unfair to the residents of this county.

Thank you for your consideration.

To the Public Service Commissioners,

I find it very troubling that you are doubling our water bills. The water bills I pay currently since moving to Seminole are almost 50% what I previously paid. Now I am reading in the media that our representatives are not looking into the peoples concerns but the well-being of a water utility. Shoving the heavy burden onto the hard working people that live in our area. Shame on you if you pass an immediate rate hike that will impact all of us so harshly. It is not fair to expect our area to subsidize other areas that have higher costs. Please consider your actions and the way your votes are going to affect the families that live in Seminole.

Sincerely,
Ryan Gersonde
