Subject: Seminole County Water Utility Rate Increase

To Whom it may concern,

I am just hearing about a possible 130% utility rate increase for Seminole County residents. This type of increase is outrageous and I cannot believe that they only way that we were communicated about this potential increase was by Facebook and not the county. Please do what you can to not have this increase approved as this could be a huge hardship for many of the Seminole County residents.

Regards,

Holly Kroll
