Subject: Docket No. 20170009 - Oppose FPL's Unfair Request

Dear FL PSC,

Dear Commissioners,

Please reject FPL's request in Docket No. 20170009. It is not fair for the company to continue to heap the financial risk onto customers to pursue new reactors at Turkey Point, a project for which there is no builder. I understand the builder, Westinghouse, filed for bankruptcy and is out of the nuclear construction business.

Furthermore, FPL will not commit to actually build the reactors, nor will it commit to a price tag, and FPL has not shown that the reactors are in the best economic interest of their customers.

I have already paid too much for too long toward this phantom project, as have all the other FPL customers. Enough is enough.

Thank you in advance for considering customers' economic interest in this proceeding. Please reject FPL's heavy-handed and unprecedented request.

Sincerely,  
Roberta Neway
