Subject: Duke energy

I implore you not to allow Duke energy off the hook for their lies and fees about the nuke plant. They have done nothing in my area for years to upgrade the grid. I have called them several times since Hurricane Irma and no one has bothered to call me back or show up. Please don't give them one penny in extra monthly fees. They are the worst electric company in Florida. I don't understand who are watching these people for allowing the nuke charge for going on so long and then just let them slide. Who do I complain to about the Commission itself. I will look it up but how are the Commissioners appointed and who do they answer to? This is a shame. Please reconsider your actions regarding Duke Energy. If you vote to give them a raise and do not require them to re-pay the stolen money it is time for a change on the Commission. My name is Gerald Keefe and I live in Altamonte Springs. Home phone 407-788-1644. I expect a response. Thank You.
