Subject: RE: Docket No. 20170007 – Deny FPL’s request to bill families for clean up costs

Good morning Ms. Roff,

We will be placing your comments below in consumer correspondence in Docket No. 20170007 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brandy Butler
Commission Deputy Clerk I
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399

Subject: Docket No. 20170007 – Deny FPL’s request to bill families for clean up costs

Dear FL PSC,

I recognize the difficult position you have regarding these rate requests, as gubernatorial appointees in a system of four year terms. It must be hard to consider the long term strategy, but authorizing customer billing year after year on Turkey Point is such a tragic waste. These funds would give the current and future residents of Florida a variety of returns on their investment if it were applied to clean, sustainable and renewable energy generation. We would stop wasting valuable water, avoid risky mining, processing, and transport of uranium fuel and it's waste products.

FPL customers shouldn't have to pay to clean up the company's mess at its Turkey Point plant. It's not fair for customers of a company, which made record profits last year, to pay clean up costs for a mess that's been developing on FPL's watch for 40 years.

The company should have known long ago that its cooling canals were creating a growing underground contamination plume in the drinking water aquifer. FPL should have acted prudently in addressing its problems - it did not. It sat on its hands for decades and only recently began to consider a solution to the problem. Why should I pay for decades of mistakes by FPL?

FPL was recently granted a rate hike and will also be requesting recovery over \$1 billion from customers due to storm damage. Florida's families should not have to pay over \$200 million to FPL to cover FPL's inaction to address pollution from its cooling canals.

FPL should pay to clean up its own mess, not customers. Please vote to deny FPL's unfair request to saddle families with more costs and higher bills.

Please stop pouring our money into this bottomless pit and start decommissioning before rising seas spread this contamination around the globe.

Sincerely,

Rhonda Roff
