Subject: Docket No. 20170007 - Deny FPL's request to bill families for clean up costs

Dear FL PSC,

Hello PSC,

Seriously? I have to write a letter saying I shouldn't have to pay to clean up FPLs negligent mess at Turkey Point? It's right near my best friends house. It's with mushroom cloud distance of my parent's house. No FPL customer should have to pay to clean up the company's mess at its Turkey Point plant. They made record profits last year. Have THEM pay the clean up costs for a mess they created over the course of 40 years.

The company should have known long ago that its cooling canals were creating a growing underground contamination plume in the drinking water aquifer. FPL should have acted prudently in addressing its problems - it did not. It sat on its hands for decades and only recently began to consider a solution to the problem. Why should I pay for decades of mistakes by FPL?

FPL was recently granted a rate hike and will also be requesting recovery over \$1 billion from customers due to storm damage. Florida's families should not have to pay over \$200 million to FPL to cover FPL's inaction to address pollution from its cooling canals.

FPL should pay to clean up its own mess, not customers. Please vote to deny FPL's unfair request to saddle families with more costs and higher bills.

Sincerely, Jody Finver
