CASE DOCKET # 20170007.

case #

2017007

CORRESPONDENCE

12/12/2017

DOCUMENT NO. 10529-2017

It is our understanding according to the Miami Herald article of Nov. 24/17 that Florida Power + Light is trying to penalize us hard working people for something they should be responsible for. We don't belong to the fortunate population that increases in their Electric Bills wouldn't even be noticed.

We are pressed economically to make our ends meet, so any extra amount in our monthly electrical bill could be of serious consequences.

How do we get by? by conserving energy, not wasting a penny, turning lights off when not needed.

\$200 millions is outrageous, for FPL is a drop in the bucket.

Please; use your common sense and defend us from them. Paying our taxes, fullfillment of our responsibilities which we gladly do because as citizens of this great Country is our obligation, but is also a economic challenge for us the working class people.

over →

FPL responsibilities is to responsible  
cover their mistakes, not put a dent in  
our pockets, they swimm in money, we don't

All we ask you to reconsider  
their monstrous petition, and we the hard  
working people, would have peace of mind  
at least for now. We'll be grateful for  
ever. With all due respect.

Yours truly

Felipe Ibarra
