

FLORIDA PUBLIC SERVICE COMMISSION

Item 3

VOTE SHEET

January 9, 2018

FILED 1/9/2018  
DOCUMENT NO. 00203-2018  
FPSC - COMMISSION CLERK

**Docket No. 20170216-EI** – Petition for approval of curtailable service tariff modifications, by Florida Power & Light Company.

**Issue 1:** Should the Commission approve FPL’s petition for curtailable service tariff modifications?

**Recommendation:** Yes. The Commission should approve FPL’s proposed curtailable service tariff modifications. Staff believes that this proposal provides load control benefits to the company and ratepayers. C/I customers also benefit from higher credits. Closure of the CS tariffs is acceptable due to lack of interest.

**APPROVED**

**Issue 2:** Should this docket be closed?

**Recommendation:** If Issue 1 is approved and a protest is filed within 21 days of the issuance of the order, the tariffs should not go into effect, pending resolution of the protest. If no timely protest is filed, this docket should be closed and the tariff shall become effective upon the issuance of a consummating order.

**APPROVED**

Subject: Request for Oral Modification -- Item 3 -- Docket 20170216, FPL's Petition for approval of modifications to curtailable service tariffs

Braulio,

Staff requests approval to make an oral modification to Item 3 (Docket 20170216, FPL's Petition for approval of modifications to curtailable service tariffs) scheduled for the January 9, 2018 Commission Conference. The modification

appears below and affects Issue 1, page 3, the second paragraph under the subheading FPL's Proposal. The modification corrects language regarding the method of cost recovery for the tariffs and has no material impact on staff's recommendation.

Currently, the company provides service to 31 customers under CS tariffs. According to FPL, 16 of those customers have the required demand to qualify for the CDR. Out of those 16, seven customers have expressed interest in a direct transfer from the CS tariffs to the CDR. The credits provided to customers under both tariffs are recovered by the company as Demand Side Management programs through the Energy Conservation Cost Recovery Clause (ECCR). The credits provided to customers through the CS tariffs are recovered by the company in base rates, while the CDR credits are recovered through the Energy Conservation Cost Recovery Clause (ECCR). In the company's petition, FPL states that the ECCR impact of all 16 eligible customers transferring to the CDR would be 0.0008 cents per kilowatt hour (kWh) or less than \$0.01 per 1,000 kWh. These 16 potential transferees would join 526 customers who presently take service under the CDR.

Thanks,  
Greg
