The above confidential material is related to a third request for extension of confidential classification, filed on 12/29/2017 (DN 10957-2017). Please complete the following form by checking all applicable information and forward it to the attorney assigned to the docket, along with a brief memorandum supporting your recommendation.

- The document(s) is (are), in fact, what the utility asserts it (them) to be.
- The utility has provided enough details to perform a reasoned analysis of its request.
- The material has been received incident to an inquiry.
- The material is confidential business information because it includes:
  - (a) Trade secrets;
  - (b) Internal auditing controls and reports of internal auditors;
  - (c) Security measures, systems, or procedures;
  - (d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms;
  - (e) Employee personnel information unrelated to compensation, duties, qualifications, or responsibilities;
  - (f) Tax returns or tax-related information;
  - (g) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information.
- The material appears to be confidential in nature and harm to the company or its ratepayers will result from public disclosure.
- The material appears not to be confidential in nature.
- The material is a periodic or recurring filing and each filing contains confidential information.

**RE:** Docket No. 20130054 – Request for confidential classification of audit workpapers of staff's audit report entitled *Review of Progress Energy Florida, Inc.'s Quality Assurance Process for Distribution Construction*

---

Attached is a December 29, 2017 confidentiality request (DN 10957-2017) from Duke Energy Florida, LLC (DEF) concerning certain information in audit staff's workpapers for its report entitled *Review of Progress Energy Florida, Inc.'s Quality Assurance Process for Distribution Construction*. The company cites Section 366.093(3)(b), F.S., as the basis for its request.

Staff has reviewed the request and recommends the following for the pages in DN 00953-2013:

Pages 281-295 in their entirety contain DEF's distribution construction audit results for DEF-employee projects completed within each operation center.

Audit staff concurs with DEF that this data contains confidential information relating to internal auditing controls and reports of internal auditors and that the disclosure of such would impair DEF's internal business operations. Therefore, audit staff recommends that DEF's request for confidential classification be approved.
