

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Michael Nichols

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 34102

Category : Power restoration time

Comments : Questions answered from Dec. 19, 2017 memo from Wesley Taylor

Vegetation management question 1:

Generally, FPL does a good job of the trimming for power lines within the City of Naples. The local rep send maps regarding trimming and this information is forwarded to the residents notifying them that trimming is scheduled; it is good public out-reach. In terms of removal, Naples did adopt (June 2017) a new tree ordinance that has a permit component to allow for the request to remove problem vegetation.

Vegetation management question 2:

Within the City of Naples, the municipality does not manage anything outside of public City "property". More out-reach and education for residents and business; especially now while the memories of Hurricane Irma are still fresh.
