

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Hertha Schulze

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 32137

Category : Other

Comments : Florida has an ideal climate to develop solar energy power sources. Doing so would help protect our planet from devastating climate change. We feel the impact of these changes here in Flagler County which has experienced two hurricanes in the past two years--in what is normally a "safe triangle." Moreover, fostering solar expansion would create more jobs, as it already has proven so successfully in other places. This shift would be a progressive change that could become a vital enhancement of our state.
