Review of Electric Utility Hurricane Preparedness and Restoration Actions
Docket No: 20170215-EU
Name: John McCarey
Electric Utility Provider: El802 - Florida Power & Light Company
Zip Code: 34209
Category: Power restoration time
Comments: I have 45 solar panels on my roof. When your power grid went down, I was not allowed to use my solar power. I understand that it only works when the sun is up, however, the sun is up about 12+ hours a day. That power could have kept my food chilled. There should be a switch to separate my system from yours during your problem.
