

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : James Palmer

Electric Utility Provider : EI802 - Florida Power & Light Company

Zip Code : 34285

Category : Other

Comments : We should be able to use solar and batteries to generate power after the storm. I think the utilities need to invest in more solar and batteries Venice. And make it easier for customers to buy their own equipment and be able to use it when the grid goes down. We need to make sure FPL is building the grid with modern technology and clean energy to make it more dependable, not just rebuilding the same old power lines that keep going down when we need them the most.

Also, please support access to community solar by any residence or municipality and 3rd party solar ownership.
