

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Name : Shirley Chandl

Electric Utility Provider : EI806 - Tampa Electric Company

Zip Code : 33573

Category : Other

Comments : Please consider to include more sources for energy from solar. It should be easier to add solar power to individual homes and to decrease dependance on fossil fuels. I don't want fracking in my environment. No one should. The last hurricane season showed how undependable the current power grid was and how long it took for power to be restored in some places. Also, in critical circumstances, there are people who can't be without power. With modern technology, there should be better solutions to these problems. I think solar is one.
