Review of Electric Utility Hurricane Preparedness and Restoration Actions
Docket No: 20170215-EU
Name: Tammy Lettieri
Electric Utility Provider: EI802 - Florida Power & Light Company
Zip Code: 33065
Category: Power restoration time

Comments: It is long past time to make the Sunshine state the Solar Power state. As Floridians we deserve better than aging infrastructure/power grids that can NOT withstand these catastrophic hurricanes or for that matter even a tropical storm! And we deserve a power grid fueled by clean RENEWABLE energy not toxic, deadly nuclear and fossil fuels. And then there is the issue of the misguided effort to extend the license for the decrepit and leaking Turkey Point nuclear power plant that also jeopardizes not only our precious aquifer but the entire coast of Florida!

We deserve better. We deserve accountability and respect for humanity and the planet that sustains us from our power company. There is no Planet B. Renewable energy is not only possible but it is essential to life, liberty and the pursuit of happiness!
