Comments : I noticed when I read my CHELCO news letter, that nuclear energy was going to be used to diversify our energy source. We should diversify in Clean Energy! It's Common Sense! Florida Should be the Leader!

Please, I urge you not to use dangerous nuclear energy, coal or natural gas!

We need clean alternatives! It's plain common sense! The sun comes out after a hurricane - we need Solar! The wind blows in a hurricane, we need wind energy! The water gets rough, we need wave energy! It's just Common Sense. Thank you.
