Comments : FPL has been collecting money from customers for decades and never used it what it was intended for

Example Nuclear power plant never got built (thank God)

FPL has been against residential roof top solar for decades

Time to put a stop to these corporate bullies

Investors are guaranteed 10% on their money forever!

Top electives receive millions in salaries and bonuses

You should allow Community Solar Farms

I have a great disdain for companies that mislead the public and spend millions on lobbyist who buy off our elected officials
