

Review of Electric Utility Hurricane Preparedness and Restoration Actions

Docket No : 20170215-EU

Category : Power restoration time

Comments : I think legislation should encourage and allow more community solar projects. Where a group of neighbors can invest and build their own ground-mounted solar array on barren land and power it

into the grid in such a way that if the power goes out in one neighborhood it won't affect theirs.

And they can get a return collectively their solar energy credits on their power bills.
