Staff's First Data Request

Re: Petition of Tampa Electric Company for approval of temporary territorial variance.

Dear Mr. Beasley:

By this letter and pursuant to subsection 366.04(2), Florida Statutes, Commission staff respectfully request the following information from Tampa Electric Company (TECO) and Mosaic Fertilizer, LLC (Mosaic).

1. What is the distance in miles between the Four Corners South facility and TECO's existing 69 kV line?
2. Who will be responsible to extend service lines between TECO's existing line and the Four Corners South facility, TECO or Mosaic?
3. Will it be necessary for TECO to invest in any additional facilities to provide service to the proposed area? If so, please provide a cost breakdown of any materials needed.
4. Please explain if TECO plans to provide power for Mosaic if it takes longer than the projected (May 2019) temporary time frame for the Four Corners South facility.
5. How much load is the Four Corners South facility projected to add during its increased mining operations?

Please file all responses electronically no later than July 16, 2018, via the Commission's website at www.floridapsc.com by selecting the Clerk's Office tab and Electronic Filing Web Form. Please contact me at RDoherty@psc.state.fl.us or at 850-413-6858 if you have any questions.

Thank you,

/s/ Riley Doherty
