Subject: RE: Docket No. 20180022-WU - Application for staff-assisted rate case in Lake County by Pine Harbour Waterworks, Inc.

Hi Troy,

We received your filing with the Commission Clerk dated August 30, 2018, regarding certain pro forma plant items for Pine Harbour Waterworks, Inc. In your filing you stated “[a]t the request of the FPSC Staff, Pine Harbour replaced the outdoor lighting and the timer.” I would like to clarify that staff did not request that the Utility replace all the exterior light fixtures, all the exterior bulbs, nor the timer controlling those bulbs. It was staff’s understanding based on your comments during the site visit on July 27, 2018 that you were going to contact an electrician to check if the timer was working properly and the lights were “on” at night.

Based on a telephone communication, on the morning of August 3, 2018, you explained that an electrician had yet to be contacted. Later that day you called and informed me that the lighting issue had been resolved and that the bulbs were changed. Please let me know if you have any questions.

Thanks,

Luis Salvador, P.E.
