Good afternoon, Elisabeth,

Thank you for bringing this to our attention. I believe this type of docket really should have started out as an EG years ago. However, per your request below, and for the sake of consistency, we have changed the suffix to EI.

Good morning,

We are working on this docket and I just noticed it is -EG. We have handled the same dockets for FPL in prior years, and it was always -EI. I think this one should be -EI too.

Thanks
