Dear Public Service Commission PSC,

As a Floridian age 50+, we are coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a limited or fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

As an Navy Vet and Army Retired man, having a new addition to my family, my first born, it is costly and I need to keep my budget right where it is! An increase will only hurt my income and take away from my child.

Please, don't take advantage of your freedom to take advantage of we whom need your service to live and have no choice to use your service! If there were another company to choose, I would if you were to give a rate increase, so this would be an unbalanced, unfair, move on your part!

Sincerely,

Mr. David Przybyszewski II
