Dear Public Service Commission PSC,

As a Floridian age 87, that is coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

I also think when you bought Gulf Power you saw a fine company and you would make money for your share holders.  
I save money each month for emergencies in the future and businesses should do the same.

Management could lower their wages an stock holder their dividends.

DON'T touch the worker's salary!

Sincerly
