Hi Curtis,

Did you request that Myakka/Ackaway resubmit a different application for certificate to provide local telecommunications service? I note that new Docket 20190037 was opened on 2/4/19 with one application, and today we received the one that is attached. Not sure if they are wanting to do something different, or if they were told to refile a "corrected" application... Not sure how to proceed with entering this one.

Thanks for your help,

Dorothy
