Public Service Commission PSC, PSC,
FL

Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As a Floridian age 50+, I'm fed up that Florida Power & Light is getting a massive tax cut and is passing those savings to shareholders.

Customers across the U.S. have enjoyed lower bills as a result of a tax savings. We should too.

As a public utility, you must put the public interest FIRST, ahead of shareholder interests. Voluntary compliance with the standard set in this industry for you by other utilities is preferable to being forced by a court to do so. Get with the program.

Many of us live on fixed incomes and do not have the benefit or luxury of dividend income to supplement our daily expenses. Your board's

behavior is outrageous and will not be tolerated in light of the fact that air conditioning, in particular, is a necessity, not a luxury, especially for those of us over the age of 50 and who have health conditions that are aggravated by the unrelenting heat of summer, which, as everyone knows, lasts six months or more in South Florida.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.
We need lower rates, now!

Sincerely,

Ms. Betty Barber
