FL

Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

AARP is asking its Florida members to communicate with you regarding Florida Power and Light's apparent refusal to return some or all of the recent \$649.6 million tax cut they received. AARP also mentioned that other publicly owned utilities in the state were passing the tax refund along to their customers by lowering their bills. Is this accurate? Can

your agency require FP&L to credit monthly bills of their customers--in other words, return all or part of this refund to their customers.?

I know you have the authority to approve or disapprove rate requests from public utilities. I would hope you are looking out for the taxpayers of this state when you make a decision in coming years to allow FP&L to increase rates, particularly if they refuse to return any of this tax windfall to their customers.

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Mr. Ronnie Hughes
