Docket No: 20180046

Dear Ms. Stauffer:

Tax cut and Jobs Act of 2017 lowered corporate income tax rates from 35 per cent to 21 percent for Florida Power and Light. They are receiving a massive financial windfall to the tune of \$649.6 million annually. Instead of returning some of these savings to its ratepayers FPL prefers to benefit its shareholders not its customers.

I believe we deserve lower rates in lieu of this savings for them. Any savings would help me as a senior just getting by with today's high prices and many other seniors too.

Please do what you can and look into this matter and help us.

I thank you in advance.

Sincerely,
Marilyn Castellano
