Bart,

Docket 20190083 has been opened to address a test year notification from Sebring Gas Systems, Inc. The ProgMod currently assigned for the docket is Ala.

Since the company has stated in the test year letter that it intends to request the Commission to process its request using PAA process, please confirm for us that the docket will following a PAA track. If so, we will change the ProgMod to Alf.

Thank you very much!
