Subject: Docket # 20180046 Share FPL Utility Reduced Tax to Consumers

Dear FL Public Service Commission:

I am a FL resident who is dismayed to hear that FPL is not planning to reduce electrical rates when FPL will receive a massive financial windfall from the Federal Tax Cuts of 2017. This is not FAIR.

FPL is spending a lot of money to fool FPL consumers by talking about FPL low rates. But this does not take into account the huge amount of money that FPL will receive since they are the ONLY FL investor owned utility company. This money should be shared with FPL customers and NOT the already rich shareholders and FPL board members. FPL consumers should obtain benefits of the extra \$ 600 million in profits every year.

Yes FL consumers need to get the benefits of this tax cuts. Please ORDER FPL to return its excess profits to its customers and LOWER its rates accordingly. Yes FPL customers deserve lower rates.

Sincerely,

Anush Dawidjan
