Subject: Increase in my power bill

Hello my Name is Jack Newton I live in Escambia county and have Gulf Power as my only power company and now I'm finding out that they are raising my power bill due to Hurricane Michael in Panama City I dont understand how your commission is alouding this to people who are on a fixed income who are already struggling to pay Gulf Power high power Bill's every month due to a Hurricane that happen in Panama City so everytime there is a storm we will get our power bill raised?
I'm sorry but if a rich company like gulf power has to price gouge their customers everytime a storm comes along they should close up shop and go out of business
I guess the Government subsidies that they get is not enough money for their corporate CEO this is truly a crime to charge low income customers
