Dear Florida Public Service Commission,

I believe in the power of solar to bring clean energy's benefits to all Floridians - and I support utilities offering programs that give customers more access to clean energy.

I'm aware that Florida Power & Light is proposing the SolarTogether program, which at nearly 1,500 megawatts would be the largest shared solar program in the country.

How this program is designed, how it will benefit customers, and whether all customers can access those benefits -- these are critically important questions for you to weigh.

Right now, Florida Power & Light is proposing a program where customers who opt in will pay a premium for up to seven years before they are able to capture solar savings -- putting solar out of reach for many of our friends and neighbors.

I ask you to hold a hearing on this program before you approve it, and to ensure that all Floridians are able to make clean energy choices — especially those most in need of energy bill relief.

Sincerely,
James Keys
9647 SW 147th Ct Miami, FL 33196-1677
