FLORIDA PUBLIC SERVICE COMM.
DIVISION OF APPEALS

TO: DIVISION OF APPEALS (HELTON)

FROM: DIVISION OF RESEARCH AND REGULATORY REVIEW (HEWITT) *CSA PA AWK*

SUBJECT: STATEMENT OF ESTIMATED REGULATORY COSTS FOR DOCKET NO. 980570-EU, PROPOSED REVISIONS TO RULE 25-6.0185, F.A.C., ELECTRIC UTILITY PROCEDURES FOR LONG-TERM ENERGY EMERGENCIES

Currently, Rule 25-6.0185, F.A.C., Electric Utility Procedures for Long-term Energy Emergencies, requires each electric utility in Florida to develop and submit a long-term plan for an energy emergency caused by a fuel supply shortage.

The proposed rule amendments would streamline, clarify, and correct references in the rule. The revision makes explicit that utilities which own or control generation facilities would be the ones required to file a fuel emergency plan. The scope of the emergency plan is clarified and an energy emergency is defined. Each utility would have to review its plan every three years, modify it if necessary, and submit the revision by letter to the Commission for approval or rejection. If no modification is necessary, a letter would be filed with the Commission stating that the review had been conducted and that the existing plan is adequate.

Although emergency plans are required now and should already be reviewed on an ongoing basis, some utilities may have to review their plans more often than they have in the past. Existing personnel should be able to perform the review and submit a letter with little additional cost.

The Administrative Procedures Act encourages an agency to prepare a Statement of Estimated Regulatory Costs (SERC). However, since there should be no significant additional costs or negative impacts on utilities, small businesses, small cities, or small counties, a SERC will not be prepared for the proposed rule change.

Please keep my name on the CASR.
