Dear Clerk Florida PSC Clerk,

I understand that you will be setting energy savings goals for the state's largest utilities that will dictate the scale of efficiency programs I and my neighbors are offered for the next ten years. I urge you to stand up for customers by adopting goals that will meaningfully help families cut energy waste and save money on bills!!!!!!!!!!!! Now!!!!!!

We all want to make our homes more efficient, comfortable and secure. Robust efficiency programs play a critical role to so many hard-working families in Florida that may not have the resources to upgrade their homes without the assistance of a utility program.

Florida already badly trails states nationally, including in the Southeast, in capturing energy savings for customers.

Help us!!!!!! Now!!!

That's why I'm asking you to please support goals that are in line with the energy savings captured by leading states, and that will spur investments in energy efficiency to as many customers as possible. Let's not leave savings on the table.

Thank you for your consideration,

Sincerely,
Amanda Kopf
