SET ENERGY EFFICIENCY GOALS NOW

I understand that you will be setting energy savings goals for the state's largest utilities that will dictate the scale of efficiency programs. Please adopt goals that will help families cut energy waste.

Please move towards non-fossil fuel solutions. I am deeply concerned about our warming planet and rising seas here in FL.

I am not against nuclear, but support it.

Florida already badly trails states nationally. Jumpstart FPL and others to spur investments in energy efficiency and renewables to as many customers as possible. Let's not leave savings on the table.

Thank you for your consideration,
