Dear Florida Public Service Commission,

Hi my name is Jean Farris and I live in Orlando.

DON'T DESTROY OUR WETLANDS;THEY PROTECT US FROM HURRICANES, CLEAN OUR WATER AND KEEP OUR ECOSYSTEMS BALANCED. LETTING THEM BE PROFLIGATELY DESTROYED IS INSANE;YOU MAY AS WELL JUST CUT US OFF FROM THE MAINLAND AND SINK INTO THE OCEAN...IT AMOUNTS TO THE SAME THING!

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems

in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,  
Jean Farris
