**Subject:** RE: Stop utilities from making it harder to save money on bills; Docket Nos. 20190015 to 20190021

Good Morning, Kathryn Sleeper

We will be placing your comments below in consumer correspondence in Docket Numbers 20190015 to 20190021, and forwarding them to the Office of Consumer Assistance and Outreach.

Have a great day,

Public Service Commission

Ereecy McNeal Commission Deputy Clerk I  
P. (850)413-6656

Dear Florida Public Service Commission,

Hi my name is Kathryn Sleeper and I live in Deland.

I remember the days of smog so thick you couldn't see to drive, and the days when we could no longer swim in Lake Michigan without getting sick. Our laws and regulations turned this around! Keep going forward- more pollution regulation NOT less. That's the only thing that makes sense!

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems

in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,  
Kathryn Sleeper

Deland, FL 32720 ■
