Dear Florida Public Service Commission,

Hi my name is DONNA WARD and I live in ARCADIA.

AS TEMPERATURES ARE HIGHER & LASTING LONGER BILLS GO UP. A JUMP FROM \$145 TO \$190 IS TOO MUCH. THIS IS AFTER WE INSTALLED BLACK OUT CURRTAINS.

I am writing to urge you to reject the request by Florida utilities to have a goal of zero (or nearly zero) on energy efficiency for the next ten years.

I am concerned that if the energy efficiency goals are abandoned, the utilities will stop providing the kinds of services that help people lower their power bills. People shouldn't have to choose between paying for food, medicine, or rent and being comfortable in their own homes.

Florida is ranked near the bottom of the nation in terms of energy efficiency — we should be increasing energy efficiency measures, not abandoning them. We know that increasing energy efficiency is one of the cheapest and easiest ways to fight the global warming that's causing neighborhood flooding and other serious problems in Florida.

When this issue comes back before you, I ask you please to vote to strengthen our energy efficiency goals.

Regards,

DONNA WARD
