Dear Chairman Graham:

The PSC should give utility customers a full evidentiary hearing on Rules 25-6.030 and 25-6.031 regarding Storm Protection. These rules are ripe for abuse by investor owned utilities that have historically taken advantage of ratepayers and will undoubtedly do so again. The least the PSC can do is allow a full and fair hearing so that the Office of Public Counsel can present a fully developed case. Otherwise, the PSC will be short-changing the citizens of Florida and handing a huge windfall to investor owned utilities.

I would also request that the PSC Clerk add this request letter to docket# 20190131.

Sincerely,  
Daniel C. Kasaris
