Subject: RE: Florida Power and Light Shared Solar Program

Good Afternoon, Mr. Rizzi.

We will be placing your comments below in consumer correspondence in Docket Number 20190061, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Florida Power and Light Shared Solar Program

Dear Mr. Tietzman,

I am writing to you in support of the Florida Power and Light (FPL) Shared Solar Program, SolarTogether. The SolarTogether program will allow my organization to take advantage of renewable energy sources that we would not have considered due to the cost and lack of space needed for these types of systems.

I believe strongly in corporate social responsibility and support these types of programs. As a facility manager, I try to implement green technologies and building features into project designs and during building retrofits. Below are a few examples the sustainable efforts I have used in projects over the past several years.

- Building LEED Gold facilities
- Achieving Florida Water Star status to reduce water use
- Optimizing building mechanical systems to reduce electrical use
- Retrofitting all lighting to LED fixtures

Since Florida public utilities are regulated by Federal and State agencies such as yours, I believe that FPL is best suited to build and administer the SolarTogether program. In addition, allowing third party interests to intervene or become involved in this program will only drive up the costs and discourage participation. Please do not let this happen.

SolarTogether will benefit the environment and the people of Florida for generations. I look forward to participating by entering my place of business into this program.

Please feel free to contact me if you have any questions or would like to discuss this matter in detail.

Best Regards,

Jim Rizzi, CFM
