DKT #: 20190061

Commissioners,

Safran Electrical Power operates a 124,313 square foot light industrial facility in Sarasota Florida. FP&L Solar Together program will allow us to reduce our electrical utility bills while utilizing renewable solar energy and decreasing our carbon footprint. The proposed plan as presented to us in early 2019 allows for no upfront charges with immediate benefits. We wholeheartedly embrace and support this program. We view it as a win-win proposition.

We look forward to your approval to this program in January 2020.

David Vollrath II
