COMMISSION

Docket No. 20190156-E1

In reference to the proposed interim rate increase scheduled to begin in January 2020, I would like to formally complain that FPU has and is basically robbing it's customers due to a natural disaster. How is it justified to almost DOUBLE our rates due to a Hurricane? As a community who is already suffering, we now have to worry about whether or not we will have funds to stay warm this winter. A rate increase of said degree in one of the coldest months of the year is wrong on so many levels. I personally do not feel that it is my responsibility to compensate FPU due to a natural disaster. Damages done to my properties ARE MY RESPONSIBILITIES. No one compensated me as a result, so why on earth would I AGREE to compensate a business that should've been prepared for such events?

I DO NOT AGREE WITH THE RATE

INCREASE. And if I have to move to an area in which FPU does not cover in order to avoid such theft then that is exactly what I will do.

Florida Public Utilities is officially a company I will no longer support.

~~where~~

I AM DISGUSTED!

Signed,

Jasmine Henderson

Marianna, Fl. 32446

And the Florida Public Service Commission should be ASHAMED for approving this ROBBERY. Our community has already suffered enough.
