Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

Florida has an amazing natural resource - LOTS of pure SUNSHINE.

I installed solar panels on my house three years ago and was surprised at how well they worked. I believe it is the right of every citizen to use their property and the non-polluting resources on their property to power their family's energy needs. I relied on the state's commonsense solar policies to allow me to take control of my own energy, and choose how to power our household needs.

I complied with all state and local codes, received all necessary inspections, and FPL did the installation of my net metering system. I have all the necessary safety features to prevent backflow of electricity during an emergency - to protect the safety of line workers.

Solar panels contribute to the public good by decreasing the need for power generation by less clean means. They serve as auxiliary power stations to increase the resilience of the electric grid. During an unpredictable hurricane season, Floridians need more tools – not less – in order to weather the storms that are coming our way.

If you believe in American ingenuity, if you believe in self-reliance, if you believe in FREEDOM, please support preserving net metering here in Florida.

Sincerely,

Robert Broida  
1636 Shelburne Ln Sarasota, FL 34231-3026
