Subject: I support Solar Choice in the Sunshine State - Docket: 2020-0000

Dear Florida PSC Commissioners,

I just want to say that as a race, we are failing our planet. We made a promise as all nations of the world to do better 10 years ago and have not even started to try to keep that promise. Going backwards now is not the answer. We have to try to move forward with protecting our Mother Earth and not falter. We cannot continue to be a bunch of selfish dicks as has been made even more clear with this pandemic and these awful riots that benefit no one. The solar power helps benefit everyone in the long run.

Sincerely,
Natalie Hopkins
