Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

We need to be a state that promotes natural energy resources and this needs to be a priority! We have neglected this long enough. I support policies that make the use of solar power feasible and in the long run, will bring the cost of these technologies down through market driven principals.

I know a little about this, we need to be moving towards a new energy future for jobs and energy security.

Sincerely,
Patricia Grierson
